DOWNLOAD THE COMPLETE LIST

IGLOO Cooler

Latitude 60 roller cooler keeps your gear on top. Put an ice block in the top before you pack to keep it cool even longer.

Coleman Side Wheel Cooler

This 62 quart cooler says it keeps ice up to 5 days but mine only lasted 3. I prefer the wheels on the side, like the Igloo, but some prefer the wheels on the end. It's a personal choice.

Folding Grocery Organizer

The collapsible, waterproof organizer is made with durable fabric, three compartments, and a detachable, portable cooler bag. It fits perfectly in the foldable cart!

LOADING THE BOAT

Black Reusable Grocery Bag

Perfect for trips to town, laundry, and the beach. The foil lining helps retain hot or cold temperatures with reinforced handles and a zipper closure. Put them in your shopping cart to separate foods, dairy, vegetables, dry goods, etc., as you shop.

Gill Bag

Perfect for travel and adventure. Made from waterproof puncture resistant PVC Tarpaulin fabric, with stitch free high frequency welded seams. Fully waterproof protection for all of your gear, even just sitting on a wet dock.

Storage Bin for Fridges

A removable interior tray keeps food raised off the bottom of the bin, improving airflow for your produce and preventing premature spoilage. The non-slip feet prevent your veggies from making a break for it when you open the fridge door.

STORAGE

Composite Propane Tank from Trident

Built with safety in mind, this is the only cylinder to be engineered with an internal bladder encased in fiberglass, proving to be the safest cylinder on the market. And slightly sexier than its steel cousins.

Back Deck Storage Bin

Perfect to hide the clutter of the back deck. Made with water-resistant flat woven grey wicker and a durable powder-coated steel frame.

Plastic Baskets

These plastic weave, easy-to-clean storage baskets have cutout handles on both sides so you can slide them easily out of a cupboard. Suitable for storing provisions, cosmetics, hair styling tools and under-the-sink supplies.

Round Swivel Storage

Perfect for organizing those hard-to-reach areas on your boat. Great for organizing seasonings, toiletries, cosmetics, or cleaning products.

Sunglass Holder

I have this one on my boat, and it has single-handedly answered the age-old question, "Has anyone seen my sunglasses." After only a few weeks, all glasses began to gravitate to this space - sometimes just sitting on top but that is good enough for me. I removed the lock to make it easier to open.

Boat Canvas Snap Tool

A must-have tool for boat canvas! It makes snapping and unsnapping easy with two stainless steel blades for both inside and outside snaps. It also works on corroded snaps and shrunken canvas.

A Unique Storage Bag

Made of 600D waterproof Oxford fabric with reinforced stitching, this multi-pocket storage bag easily attaches to a railing using three adjustable heavy-duty Velcro straps. Have your binoculars, phone, and water bottle handy at all times. You know it - you are upstairs, and your sunglasses are downstairs. Keep a pair, upstairs! Also has a side pocket for your snap tool.

HOW DO YOU BOAT?

KEEP THINGS SIMPLE

At the end of the day, it's about spending time in one of the most beautiful parts of the world.

I am grateful for every day on my boat, rain or shine.
